Roadmap

Q4 2024

Cross-Chain Swaps

Powered by Swing, our cross-chain swaps will make it easy for our users to onboard initial liquidity, regardless of what chain their assets are on.

Fiat On-Ramp Integration

This will allow for even a brand new crypto user to be easily onboarded from the very start.

Deploy Treble Launchpad

Announce Treble IDO

IDO for \$TREB Token

Featuring a 3% referral code that is only possible to generate after making a minimum contribution to the Treble IDO

Audit

Audit by ChainAudits.io

Q1 2025

Decentralized Crypto Spending -

No KYC Required

Enabling users to spend their digital assets freely, without KYC constraints.

Lending Integration

Augmenting Treble to become a holistic DeFi hub with lending and borrowing features.

Stable Swap Integration

Upgrading to a more efficient stablecoin trading experience.

Governance

Empowering \$xTREB holders to guide the future of Treble

Launchpad IDO on Treble

The first partner IDO on Treble Launchpad.

\$TREB TGE

Initial supply is to be distributed between private and public round participants.

Launch V2 LP Farms

Unveiling an advanced version of our Liquidity Pool Farms, packed with innovative features and improved benefits.

Introduce \$xTREB Token Staking

Debuting a new staking mechanism for \$xTREB, enhancing utility and rewards.

V4 AMM System Integration

Expanding liquidity provision and market making possibilities with the integration of the V4 AMM system.

Launch \$TREB Rewards

Initiating a rewards program to incentivize \$TREB token holding and staking.

Roadmap

Q2 - Q3 2025

Custom Farms

Allowing Treble users to create new LP farms by providing their own custom incentives.

AI-Powered Trading Bot

Integrating an advanced AI trading bot to augment trading strategies.

Custom V4 Hooks

working in collaboration with Algebra to enhance our AMM features.

Institutional KYC Contracts

Making Treble a destination for tokenized securities and other security tokens.

Limit Orders

Allowing our users for an unparalleled UI and UX.

Gas-less Swaps

Simplifying our UX even more.

Custom Analytics

Providing tailored analytics tools for users to effectively monitor and manage their assets.

MEV Bot protection

Adding a layer of protection for our users.

Perpetuals and Leverage Trading

Integration

Incorporating perpetuals and leverage trading for a dynamic trading experience on Treble.
